## EXPERIENCE

---

### Apex Cura Healthcare Solutions March, 2024 - present

- Reduced UI development time by 30% through a JSON-driven framework, enabling rapid customization of client-specific interfaces.
- Engineered real-time communication features using WebSockets to deliver instant notifications for appointments, missed calls, and leads, significantly enhancing user engagement and system responsiveness.
- Developed responsive user interfaces using React, Redux, and Tailwind CSS, ensuring seamless and accessible user experiences across healthcare dashboards, chatbots, and administrative modules.
- Increased operational efficiency through cron jobs automating feedback processing with WhatsApp notifications.
- Designed and implemented APIs using nodeJs including robust validation, role-based access control, and efficient data models to support scalable backend operations.

## SKILLS

---

Languages: Html, Css, JavaScript, Java, C, Python, Sql  
Frameworks: ReactJs, NodeJs, ExpressJs, MongoDB, Redux Toolkit, Tailwindcss, Jest, TypeScript, Antd  
Tools: Git, GitHub, Parcel, Amazon EC2, SES.

## PROJECTS

---

### FoodApp : *Html, css, TailwindCss, ReactJs, Redux, Jest* - **AppLink** - **Github**

- Built a FoodApp integrating Swiggy's live API for real-time menu and pricing updates; implemented optimized search and custom hooks for maintainability.
- Utilized TailwindCSS for styling, Parcel as the bundler, and implemented ShimmerUI and Lazy Loading to ensure a smooth and performant UX.
- Used React Router for seamless navigation, Redux Toolkit for scalable state management, localStorage for cart persistence, and React Toastify for notifications.
- Wrote unit and integration tests using React Testing Library and Jest; deployed the application on Vercel for public access.

-

### DevTinder : *Reactjs, Redux, Tailwindcss, Daisy UI, NodeJs, ExpressJs, MongoDB* **Github**

- DevTinder is a tinder for developers.
- Developed the ui with react, redux and daisy UI and the backend with nodejs.
- Implemented real time chat feature with socket.io library.
- Have integrated razorpay payment gateway and deployed in amazon EC2.

### WeTube : *Html, css, TailwindCss, ReactJs, Redux* - **AppLink** - **Github**

- Wetube fetches the videos data from youtube's API.
- The whole app uses Redux Toolkit for the better State Management of the application.
- Have implemented Optimized Search Functionality exactly like youtube. Have used debouncing over there.
- And this application has N levels of comments. And it uses react-router-dom for smooth routing and developed live-chat that uses API polling.
- Have used webpack as bundler and have deployed in vercel.

## EDUCATION

---

**Rajiv Gandhi University of Knowledge and Technologies**  
Btech Computer Science and Engineering *CGPA: 8.80*

Rk Valley Kadapa  
August 2019 - May 2023

**Rajiv Gandhi University of Knowledge Technologies**

RK Valley Kadapa

Pre-University Course *CGPA: 8.16*

August 2017 - May 2019

**Zilla Parishad High School**

Arikela

Secondary Education *CGPA: 10.0*

July 2016 - May 2017

DECLARATION

---

- I hereby declare that the above written particulars are true to the best of my knowledge and belief.
