EXPERIENCE

Apex Cura Healthcare Solutions

Software Developer, Hyderabad

Mar 2024 – Present

- Reduced UI development time by 30% through a JSON-driven framework, enabling rapid customization of client-specific interfaces.
- Engineered real-time communication features using WebSockets to deliver instant notifications for appointments, missed calls, and leads, significantly enhancing user engagement.
- Developed responsive user interfaces using React, Redux, and Tailwind CSS, ensuring seamless and accessible experiences across healthcare dashboards, chatbots, and administrative modules.
- Increased operational efficiency through cron jobs automating feedback processing with WhatsApp notifications.
- Designed and implemented REST APIs using Node.js, including robust validation, role-based access control, and optimized data models to support scalable backend operations.

ByteHearts Pvt. Ltd.

Feb 2025 – Present

- Developed **ByteHearts Pvt. Ltd.**, a Hyderabad-based SaaS and AI startup focused on building digital platforms integrating social networking and real-world exploration.
- Designed and developed the **business web application** (business.byethrills.com) enabling partner onboarding, listing management, and analytics dashboards.
- Collaborated on product roadmap, growth strategy, and monetization models; partnered with other developers for mobile app development and backend integrations.
- Conducted early-stage market validation and established partnerships with local businesses to drive pilot user engagement.

SKILLS

Languages: HTML, CSS, JavaScript (ES6+), TypeScript, Python, Java, C, SQL
Frontend: React.js, Next.js, Redux Toolkit, Zustand, Tailwind CSS, shadcn/ui, Ant Design
Backend: Node.js, Express.js, MongoDB, PostgreSQL, REST APIs, WebSockets, Socket.io, BullMQ
Tools: AWS, Docker, Git, GitHub, Webpack, Parcel, CI/CD

PROJECTS

Bytethrills : *Html, css, TailwindCss, ReactJs, NodeJs, shadcn UI* **AppLink**

- Built a full-stack B2B SaaS platform for property management using React, Node.js and AWS powering venue listings, bookings, and promotions.
- Developed a multi-step onboarding workflow with React hooks, and Redux Persist, supporting validation, drafts, and complex form states.
- Implemented secure JWT authentication with token refresh, session management, and protected routing across a large dashboard environment.
- Delivered a responsive, modern UI using React Router, Tailwind CSS, and shadcn/ui, improving accessibility and UX across listing and booking modules.

DevTinder : *Reactjs, Redux, Tailwindcss, Daisy UI, NodeJs, ExpressJs, MongoDB* **Github**

- DevTinder is a tinder for developers. Developed the ui with react, redux and daisy UI and the backend with nodejs.
- Implemented real time chat feature with socket.io library. Have integrated razorpay payment gateway and deployed in amazon EC2.
